

CCAgent External CRM

Polty's Inc.
Unified Communications Solutions

► Overview

CCAgent (Call Center Agent) is a powerful agent telephony tool that provides:

- Agent screen pop-up for quick customer identification
- Integration with 3rd-party CRM systems by easy customization using Microsoft ActiveX technology or 1st-party TSP add-on
- Agent call control, instant messaging and customer information repository

CCAgent can work standalone or combined with CRM Integration add-on that provides external integration with virtually any CRM systems.

► Key Features

- One click call handling
- Call-handling features: Make call, Answer call, On hook, Consult, Conference
- Instant Messaging
- Direct pop-up integration with Outlook, ACT! and GoldMine CRM systems
- External CRM systems integration
- Present Queue Information
- Provide Other Agents Status
- Agent Activity Logging

Benefits

- Improve customer service
- Save time on every call
- Cut agent tedium and errors in looking up customer records
- Cut the cost of handling each call.
- Can integrate with virtually any CRM or database
