

# Get Deeper Visibility into Your Call Center Activity.

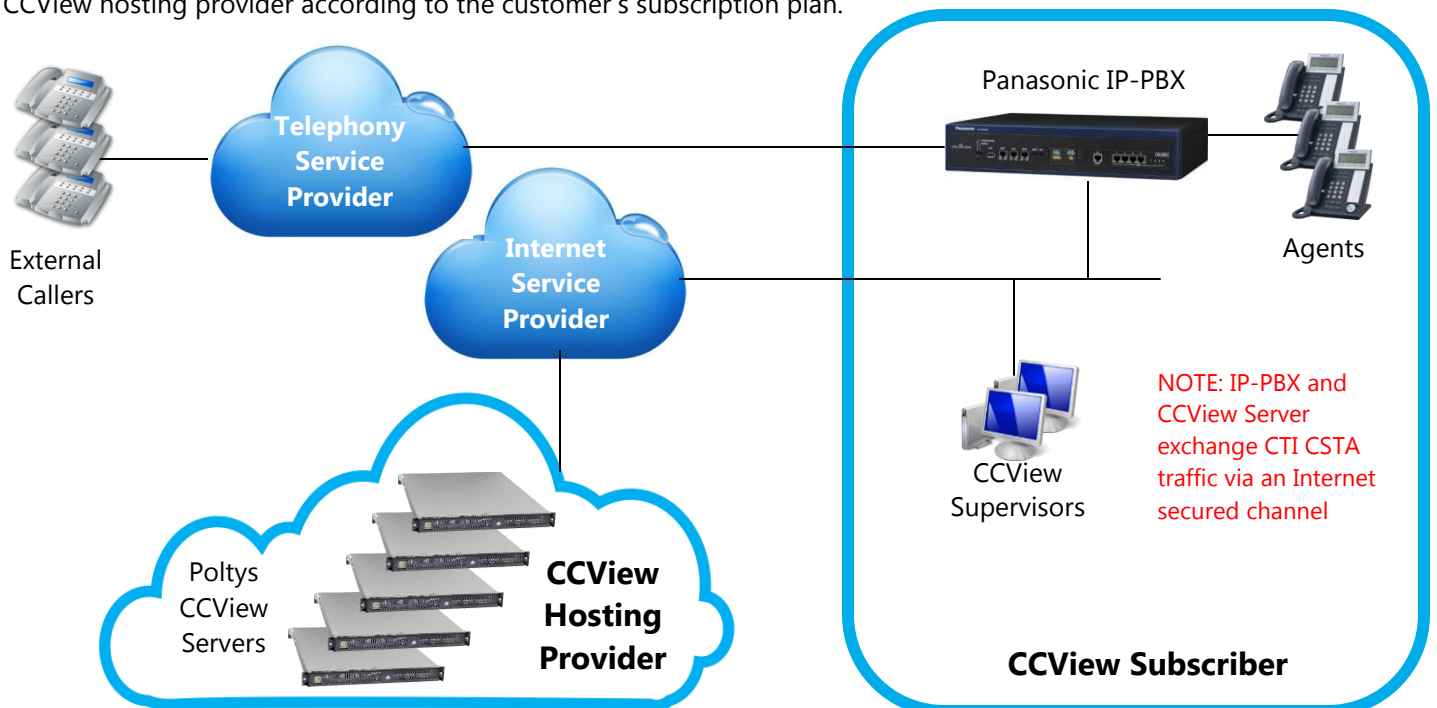

Polty's CCView offers real-time call monitoring, comprehensive reporting, and call billing services for Call Centers. Moving into the Cloud provides important telecom/ IT cost reduction opportunities.

The **Cloud Solution** of CCView (Call Center View) offers web-based real-time monitoring, comprehensive reporting, and call billing services that provide the customers with telecoms/ IT cost reduction opportunities in small and medium sized organizations, whether in retail, finance, manufacturing, service industries, telecoms/ IT, education, or government.

The CCView hosted solution for Cloud means no internal administration or operating costs for the customer, only a monthly fee paid to the CCView hosting provider according to the customer's subscription plan.

## CLOUD READY
